Cloud Security Summit 2016

18 Maggio 2016

Palazzo Castiglioni, C.so Venezia 47 Milan

The inaugural Cloud Security Italy Summit 2016 is going to be an annual conference/event where Cloud Consumer, Providers, Vendors and professionals gather to share and learn about the latest cloud security industry trends, policies, standards, best practices and experiences directly from national and international experts. The event is organized by CSA Italy (www.cloudsecurityalliance.it) , the national chapter of Cloud Security Alliance, CLUSIT (www.clusit.it), the largest InfoSec professionals association and ASSINTEL (www.assintel.it), the largest trade association of ICT SMB companies. The event is divided into 3 sections (sequential): **Morning**: The main topics are cloud computing and cloud security market, guidelines, governance and policy. The morning starts with an international keynote and ends with a panel discussion chaired by the Associations' Presidents (CSA and Clusit) with the participation of 3 important Cloud Users representing the following market sectors: Services, Public Administration, Manufacturing/Industry. **Afternoon**: The main topics are technology trends and solutions in Cloud Security. The afternoon starts with an international keynote and ends with a panel discussion chaired by CSA Italy with the participation of the afternoon's speakers (Cloud Providers, Vendors and subject matter experts). **Cocktail & Networking.**
