Marco Giorgetti

CFO and Partner @ Skeeller srl | Key Account and CMO @
MageSpecialist
Perugia Area, Italy

Summary

My professional experience in web and software development
has started in 1999 as a freelance. In 2001 I started my first own
business Idealia Group s.r.l., an IT business which focuses in
internet, software and communication using Free and Open Source
technological platforms.

I started as web developer then I worked as analyst and Project
Manager. Then I moved up to a solution specialist and pre-sales role
in Digital Commerce industry.
Now I'm key account and CMO.

I like to keep myself always up-to-date in technology world, increase
my skills and be ready to face brand new challenges.

I covered several positions in business associations and committees
during years, and I like very much giving speeches about business
and technology.

Experience

MageSpecialist
Key Account & Brand Manager @ MageSpecialist
June 2017 - Present

MageSpecialist
CFO and Partner @ Skeeller srl
June 2017 - Present

MageSpecialist
